

Julie Hogarth
Enterprising Software Engineer

Life has thrown every problem possible at me, but I'm still here

Work Experience

Senior Project

Plant Health Monitor

2024-2025

I have had no formal work experience. However, I have gained experience through projects like the senior project

Created a mobile application to detect plant diseases, diagnose issues, and report back solutions. Responsible for:

- leading the development team (jira admin of 4, later 3 members)
- backend development: writing the kotlin code for most of the activity files
- frontend development: created the app design when plans fell through and no one else was available

Education

Valley Academy of Arts and Sciences, 2017-2021

High School Diploma

55 units transferred

California State University Northridge, 2022-2026 (ongoing)

Unfinished Bachelor's degree of Computer Science

3.5 semesters worth of coursework completed

3.67 GPA as of Spring 2026
